

Lending-Cash Management-Insurance-PEO Services-Consulting

Job Description

As an IBS Investment Associate (IA), you become a part of one of the country's most successful firms, with a powerful reputation for providing unmatched financial solutions for real estate investors and small to medium sized companies. Our Investment Associate program positions you for a career in investment banking, asset management and risk assessment. In this position, you will have an extraordinary opportunity to explore the world of corporate and real estate investment banking. We hire most of our Junior Investment Bankers from our pool of Investment Associates. As a key member of the team, you are expected to make a personal impact right from the start.

Subsequent to the completion of this 4-6 Month program you will have the ability to dissect financial statements, evaluate companies and assess management. These abilities will stay with you forever, inside and outside of the Investment Bank.

Responsibilities

As an Investment Associate Intern, you will:

- Perform valuation analyses using various methodologies including discounted cash flow, leveraged buyout, trading comparable, and transaction comparables.
- Participate in the origination and execution of equity and debt transactions.
- Build detailed financial models to evaluate performance under various operating scenarios and to analyze the impacts of various capital structures and potential M&A transactions.
- Prepare presentation materials for use in client meetings, covering topics such as strategic alternatives, capital markets activity and general corporate finance.
- Participate in all stages of transaction executions, from the pitch phase through to closing.
- Coordinate efforts with deal team members across the Investment Bank.

Desired Skills & Experience

- High professional integrity, conduct and work ethic
- College degree preferred. Must be licensed or be able to pass state exam.
- Strong verbal and written communication skills with the ability to communicate with all levels internally and externally.
- Computer skills to include of Windows, PowerPoint, Excel and CRM systems.
- Risk management assessment utilizing Reuters, RMA Financial, Moody's Analytics, First Research and advanced financial spread sheet models.
- Must be referred by internal employees.
